

# Synology NAS SERVERS

Empower your business by utilizing a Synology NAS Server! These devices were designed to streamline and provide scalable storage solutions to centralize your data, enhance collaboration, and protect critical assets to the business.

## BENEFITS OF SYNOLOGY NAS SERVERS

With automated backups, remote access, and seamless integration across devices, a Synology NAS Server helps ensure your business stays connected, efficient, and prepared for growth – all at a cost-effective price point!

- ✓ **Centralized Data Storage**  
Consolidate all files into a single, secure location accessible by your team
- ✓ **Remote Access**  
Access your data anytime, anywhere, through a secure VPN and/or Remote Desktop Connection
- ✓ **Enhanced Security**  
Protect sensitive data with built-in security features like encryption, firewall settings, and two-factor authentication
- ✓ **Automated Selective Backups**  
Synology utilizes screenshot backups throughout the day to ensure important data is backed up to prevent data loss
- ✓ **Active Business Backup**  
Back up your workstation or server in its entirety so the exact environment can be restored should an unforeseen problem come up with the applicable device
- ✓ **Fast and Efficient Backups**  
Uses global deduplication to reduce storage consumption by eliminating duplicate data across backups
- ✓ **Multi-Device Integration**  
Seamlessly integrates with PCs, Macs, Smartphones, and Tablets for a unified experience
- ✓ **Collaboration Tools**  
Built-in tools like Synology Office and Drive enable real-time document editing and file sharing
- ✓ **Cost-Effective**  
Less cost than traditional Windows Servers in instances the business does not need Windows Server OS to host onsite applications
- ✓ **Cloud Backup**  
Back up important and sensitive data to the Cloud by utilizing Synology C2 Cloud Backup services, eliminating the need for manual backups
- ✓ **Cloud Integration**  
Sync with popular cloud platforms like Google Drive, Dropbox, and Microsoft OneDrive for hybrid storage solutions
- ✓ **24/7 Uptime**  
Designed for reliability with features like RAID support and dual LAN failover
